PRIVATE CONSULTATIONS AND TRAINING

- Behavior Issues
- Puppy Owner Education
- Manners & Skills
- Competitive Dog Sports Foundation For:

→Agility

→Obedience

→Freestyle

→Rally

Dog training, more often than not, involves teaching the human end of the leash as well as the dog end. Without direction, dogs' often do what comes naturally and often those behaviors are not desirable in our human lives. We work with our clients to first determine

- What are the behaviors of concern
- How can we get started changing them
- How can we manage them until the new behaviors are in place

Private Dog Training sessions take into account your busy life. We are available on a schedule that meets your needs. Together we will structure your homework so that it fits into your daily routine and lifestyle.

PRIVATE LESSON RATES

Home visits are \$85.00* for the first hour, remaining time at same session pro rated at \$50.00/hour
*Distance may decrease or increase the first hour fee

Three at a time multiple session discounts are available when paid in advance
